

Chest of drawers 'Flora', model 1050, designed by Josef Frank for Svenskt Tenn, Sweden
1930s

Mahogany, hand printed paper & brass handles.

Decoupaged furniture has become a defining feature of Svenskt Tenn's most prestigious offerings. Visible in this piece is Svenskt Tenn's legacy, representing the seamless union of functionality, artistry, and a celebration of nature, with hand printed paper from 'Nordens flora' by C. A Lindman.

The roots of Josef Frank's iconic Flora chest of drawers trace back to his early experimentation at the Haus & Garten firm in Vienna during the 1930s. Meanwhile, Estrid Ericson, founder of Svenskt Tenn, was exploring

her own inspirations. A visit to Carl von Linné's Hammarby estate in 1930 sparked her fascination with botanical prints, which would go on to shape the brand's iconic designs.

Rare opportunity to acquire a pair of Flora chest of drawers with similar patina. Please see <https://www.modernity.se/chest-of-drawers-flora-designed-by-josef-frank-for-svenskt-tenn-sweden-2/> for pairing.
